

A photograph of a man's torso, showing his chest, stomach, and arms. The image is heavily stylized with a red overlay that is darker at the edges and lighter in the center, creating a dramatic, almost ethereal effect. The man's skin appears to be a deep red or maroon color. The background is dark, making the red tones stand out.

FAQ's

ABOUT THE PENIS ENLARGEMENT

○

What you need to know

You probably have alot of questions about the procedures that enlarge your penis. Please carefully read all our Frequently Asked Questions (FAQ's)

1. What are the benefits of penis enlargement?

Our penis enlargement technique can increase your penis size in length and girth, achieving an increase of up to more than 2 inches. Among the benefits it can give you are:

- Improved self-esteem and physical appearance.
- Provides greater confidence to be naked.
- Provokes admiration and greater satisfaction from sexual partners.
- Avoids the risk of undergoing painful surgery.
- It's a safe investment (no miracle products).

2. What is the price of the procedure?

The price depends on the procedure of your choice (longer or thicker) and the amount of filler the doctor will place. The investment starts at \$2,969.00

3. Where do you perform the procedure?

MEXICO. Our locations are in:

- TIJUANA, Baja California
- MONTERREY, Nuevo Leon
- MEXICO CITY (MEXICO CITY)

4. How can I schedule an appointment?

It's very easy! You can schedule your appointment by email Aumentapro@gmail.com or call us at +1 (725)322-7722.

5. Does the procedure increase the width or the length of the penis?

It can do both. These procedures can increase the length of the penis, the girth or increase both depending on the characteristics.

6. How much will my penis grow

The increase in proportions depends on the type of enlargement you choose, the amount of filler placed and your own penis anatomy. The growth is measured in length from the pubic symphysis (the small bone on top of the penis) to the tip of the glans penis base, and in girth with the circumference of the penile shaft. The increase that can be achieved is as follows:

LENGTH: Depends on the elasticity of the penis. It can increase from 85 to 90% of the current elastic capacity.

THICKNESS: From 1 to more than 2 inches.

7. What type of filler is placed in the penile shaft?

We use specialized subdermal fillers that are Hyaluronic Acid based.

. They are reabsorbable and non-reabsorbable substances, totally safe for the male genitalia. The type of material to be placed depends on the type of enlargement you choose.

REABSORBABLE SUBSTANCE: with temporary or semi-permanent result.

NON REABSORBABLE SUBSTANCE: with permanent result

8. How long does the effect last?

the duration of the new size of your penis will depend on which procedure you have chosen.

TEMPORARY: 12 months.

SEMIPERMANENT: Up to four years.

PERMANENT: Lifetime.

9. How do I know if I need a penis enlargement?

Everyone needs it, a bigger size doesn't hurt anyone. Actually, anyone with the desire to have a bigger penis needs it. If you are not satisfied with your current size, this is for you.

10. Where can I find before and after pictures?

You can access all our uncensored material by reaching out to us.

11. Do I need to have circumcision for enlargement?

Yes, circumcision is required to undergo the procedure. If you are uncircumcised, you can get circumcised with us, it is with laser, painless and with accelerated recovery.

12. Will my partner be able to notice that I have enlarged the size of my penis?

Yes. If it is a partner whom you already have, she will notice but not like you expect. Your penis will be larger in its flaccid state. It will also gain in length because of the gel.

TEMPORARY: 12 months.

SEMIPERMANENT: Up to four years.

PERMANENT: Lifetime.

13. Will my partner be able to feel more during sex with my new penis?

Yes, the female anatomy is very sensitive and has many nerve endings. She will absolutely feel you in a way she has never felt you before! You will also gain a lot of confidence as well!

14. How is penis enlargement performed?

It is very simple! The procedure is non surgical, you walk in and walk out the same day. After applying local anesthesia, with a very small syringe the enlargement gel is placed in the penile shaft, without opening or cutting the skin. The result is immediately visible and the process is over.

15. How long does the procedure take?

The process takes about 60 minutes. In less than an hour you get great results.

16. Does it require rest or hospital stay after the procedure?

Not at all. The procedure is completely outpatient, you walk in and walk out same day. It does not require you to stay in the clinic to recover. Immediately after the procedure you can continue with your regular day, drive, work and even play sports.

17. How soon can I have sex again?

In just two weeks you can resume sexual activity - it will be the best sex of your life!

18. Are there any risks involved in the procedure?

Don't worry, during the procedure there is no risk, it is minimally invasive.

19. Do I lose any sensation in the penis after the enlargement?

No. The nerve endings and pleasure receptors of the penis are not involved in the penile shaft enlargement procedure, so there is no alteration whatsoever.

20. Does it affect the quality of erections?

No. The frequency and strength of erections remain exactly the same.

21. Can I have children after the procedure?

Of course, your reproductive functions are not affected at any time.
